HEALTHYLIVING

"To keep the body in good health is a duty, otherwise we shall not be able to keep our mind strong and clear."

– Gautama Buddha

WELCARE™
HEALTHY LIVING

HEALTHYLIVING

S&T Welcare Equipments Pvt Ltd is an organization which aims to serve the society by helping people choose a healthier lifestyle. The idea of a stronger, healthier India is what fuels our determination to excel at all things that we do at Welcare.

Founded in the year 2005, Welcare started its operations in India by opening its first store in Tamil Nadu .Since then, our organization has consistently grown by expanding our operations across India. As a premier fitness brand, we have thirty two exclusive brand stores in all major cities in South India. We are growing rapidly as a result of our strong dealership network spread across all major cities in India.

WELCARE leads the fitness industry in India because of our:

? Reliability
? Assured Service
? On-time Delivery
? Cost Efficiency

Welcare delivers fitness equipment that can fully support

? Commercial Gyms
? Hotels / Resorts
? Apartment Club House
? Hospitals
? Corporate
? Institutions
? Home Use etc.

THE GROUP

S&T ENGINEERS (P) LTD.
Making Technology Affordable

S&T MEDICAL EQUIPMENTS

S&T Welcare Equipments (P) Ltd.

VISION

To established " WELCARE" as a most preferred brand among fitness equipments by providing customers better products, best after sales service and thereby making them to lead a healthy life.

G Series - Highlights

- The innovative biomechanical design of the Power Impact G Series Selectorized line delivers a more natural, unrestricted functional movement
- Ride Oriented Exercise provides a Rocking Movement that constantly adjusts the user to achieve optimal biomechanical positioning throughout the exercise
- Integrated head support helps maintain a neutral cervical spine on rearward rocking machines
- Molded plastic upholstery covers add a contemporary and finished look
- Contoured footrests provide a perpendicular platform for user support and stability
- Integrated water bottle holder, and accessory tray to keep personal items organized and out of the way of others (less clutter on gym floor)
- Easy step through design speeds up workouts by allowing quick entry and exit of the machine
- Integrated scuff guards are strategically placed to protect the machine's frame finish
- Rubber foot protectors to guard facility flooring
- Oversized handles with bulged ends provide a more comfortable and secure grip
- Ratcheting adjuster system provides quick and easy seat adjustment

I.	Seat Adjustments	Seat is Adjustable
J.	Handles	Slip resistant rubber sleeve with end cap
K.	Instruction board	Clear pictures on machine

6.0 ISOKINETIC SERIES

Features

Resistance exercise designed to provide a preset level of resistance while maintaining a same speed of movement.

The electronically controlled cylinder regulates a constant speed throughout the entire range of motions.

This promotes the highest degree of muscle contraction by compelling the user to manipulate the resistance against a constant speed.

This limits the risks associated with straining or pulling the muscles caused by the typical acceleration and deceleration common with the manipulation of free weights or weight stack devices.

Assistant training for muscle strength, health care, and shape keeping, especially design for ladies, elders and children.

This technique of resistance training is particularly effective in the following environments:

1. Physical therapy facilities where strength training is required in order to safely rehabilitate injured muscles, ligaments or tendons.
2. Senior citizen training facilities where strict adherences to proper exercise techniques are required in order to minimize the possibility of training related injury.
3. Fitness centers where personal trainers are not continuously staffed to ensure that members are utilizing safe and light loading weight training techniques.
4. Home gyms when users desire to safely maximize their training potential in an environment where spotters are not typically present.
5. Various devices can be circuit training applicable and training of whole body muscles.

Infrared Thermometer

Digital Weight Scale

INFRARED THERMOMETER

- Infrared thermometer comes with a unique design – Hand piece with a stand.
- Infrared sensing of temperature is the way how this device works.
- Japanese sensor which gives accurate results in just 1 second.
- One touch On & Off button.
- A big and bright led back light display which shows temperature in Fahrenheit.
- A small smiley face in the display which indicate the normal and abnormal ranges of temperatures.
- Fever alarm - Red back light appears when the temperature crosses 99 degree Fahrenheit.
- 10 inbuilt memories in thermometer.
- Torchlight option available - temperature can be measured even at night time without disturbing the baby

DIGITAL WEIGHT SCALE

- 25mm LCD Display
- High Precision Strain-gauge sensor system
- User capacity–150kg (1kg to 150kg)
- Automatic Zero setting
- Automatic Switch off
- Overload / Low power indication Lithium Battery Operates Accuracy: 0.2kg

BLOOD SUGAR MONITOR

- Accurate result is less than 7 seconds.
- Wide measuring range 20-600 mg/di.
- Required very little sample: just 0.7ul
- Memory: 180
- Operating Temperature 10-40degree C
- Auto Off
- Date Time Option
- Swiss Design

BLOOD PRESSURE MONITOR

- BHS Certified
- Accurate Pressure: ±3mHg
- Accuracy Pulse: + 5% of reading
- Pulse rate: 40 to 200 per minute
- Memory: 30 measurements
- Measuring Range SYS/DIA: 30 to 280mm
- One Touch On/Off
- Date Time Option
- Cuff Holder

7 in 1 MODEL

BODY FAT SCALE

- This Body Fat scale allow you to measure weight, body fat percentage, water percentage, weight of bone, visceral fat muscle and calorie value simultaneously and easily, simply by stepping on a scale.
- Personal data (Female/ Male, Age, Height) can be pre-set and stored in personal data memories.
- Automatic Shut-down function, during programming, if you do not touch any of the keys or buttons within 15 seconds. After you have completed the measuring process, the power will shut off automatically within 15 seconds
- With automatic zero function
  With Low battery and overload indication function
